This is a decision on the petition filed on 6 June, 2005, under 37 CFR 1.137(a)¹ to revive the above-identified application which is first treated as a petition to withdraw the holding of abandonment.

The petition is dismissed.

Any request for reconsideration of this decision must be submitted within **TWO (2) MONTHS** from the mail date of this decision. Extensions of time under 37 CFR 1.136(a) are permitted. The reconsideration request should include a cover letter entitled "Renewed Petition under 37 CFR 1.137(a)" or "Renewed Petition to withdraw the holding of abandonment," or as discussed below "Renewed Petition under 37 CFR 1.137(b)".

¹ A grantable petition under 37 CFR 1.137(a) must be accompanied by:

(1) the required reply, unless previously filed; In a nonprovisional application abandoned for failure to prosecute, the required reply may be met by the filing of a continuing application. In a nonprovisional utility or plant application filed on or after June 8, 1995, and abandoned for failure to prosecute, the required reply may also be met by the filing of a request for continued examination in compliance with § 1.114. In an application or patent, abandoned or lapsed for failure to pay the issue fee or any portion thereof, the required reply must be the payment of the issue fee or any outstanding balance thereof.

(2) the petition fee as set forth in 37 CFR 1.17(1);

(3) a showing to the satisfaction of the Commissioner that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition pursuant to 37 CFR 1.137(a) was unavoidable; and

(4) any terminal disclaimer (and fee as set forth in 37 CFR 1.20(d)) required pursuant to 37 CFR 1.137(c)).

The application became abandoned on 29 September, 2004, for failure to timely file a response to the Notice to File Missing Parts of Nonprovisional Application mailed on 28 July, 2004, which set a two (2) month shortened period for reply. No extensions of the time for reply in accordance with 37 CFR 1.136(a) were obtained. Notice of Abandonment was mailed on 6 April, 2005.

Petitioner asserts unavoidable delay in that the Notice mailed on 28 July, 2004, was never received because it was sent to an incorrect correspondence address.

PETITION TO WITHDRAW THE HOLDING OF ABANDONMENT

Petitioners asserts that the Office action mailed on 15 June, 2004, was never received. A review of the record indicates no irregularity in the mailing of the Office action, and in the absence of any irregularity in the mailing, there is a strong presumption that the Office action was properly mailed to the address of record. This presumption may be overcome by a showing that the Office action was not in fact received. The showing required to establish the failure to receive an Office action must include a statement from the practitioner stating that the Office communication was not received by the practitioner and attesting to the fact that a search of the file jacket and docket records indicates that the Office communication was not received. A copy of the docket record where the non-received Office communication would have been entered had it been received and docketed must be attached to and referenced in practitioner's statement.² The showing outlined above may not be sufficient if there are circumstances that point to a conclusion that the Office communication may have been lost after receipt rather than a conclusion that the Office action was lost in the mail (e.g. if the practitioner has a history of not receiving Office actions).

A review of the record reveals that the Notice to File Missing Parts of Nonprovisional Application was first mailed on 14 June, 2004, and was returned to the Office as undeliverable on 20 June, 2004. The Office action was remailed on 28 July, 2004, and was again returned as undeliverable on 6 August, 2004. However, the showing of record is that the Office action was properly addressed to Robert Gagne, Atabok, Inc., Suite 300, 29 Crafts Street, Brookline, MA 02446: the address provided in the

²M.P.E.P. § 711.03(c); See Notice entitled "Withdrawing the Holding of Abandonment When Office Actions Are Not Received," 1156 O.G. 53 (November 16, 1993).

application transmittal form filed on 30 January, 2004. As such, the showing of record is that the USPTO properly mailed the Office action to the address provided by petitioners, but that the address provided by petitioners was no longer valid. Failure to provide a proper correspondence address is not grounds for withdrawal of the holding of abandonment. As such, the showing is that there was no irregularity in the mailing of the Office action mailed on either 14 June or 28 July, 2004. Rather, petitioners failed to provide the Office with a current correspondence address. As such, the failure to receive the Office action is the fault of petitioners and not that of the Office. As such, the petition to withdraw the holding of abandonment is dismissed.

If petitioners have evidence that they attempted to provide the correct correspondence address to the Office prior to the mailing of the Office action mailed on 28 July, 2004, petitioners may wish to consider submitting said evidence with a renewed petition.

PETITION UNDER 37 CFR 1.137(a)

The Commissioner may revive an abandoned application if the delay in responding to the relevant outstanding Office requirement is shown to the satisfaction of the Commissioner to be "unavoidable".³ Decisions on reviving abandoned applications on the basis of "unavoidable" delay have adopted the reasonably prudent person standard in determining if the delay was unavoidable:

The word 'unavoidable' . . . is applicable to ordinary human affairs, and requires no more or greater care or diligence than is generally used and observed by prudent and careful men in relation to their most important business. It permits them in the exercise of this care to rely upon the ordinary and trustworthy agencies of mail and telegraph, worthy and reliable employees, and such other means and instrumentalities as are usually employed in such important business. If unexpectedly, or through the unforeseen fault or imperfection of these agencies and instrumentalities, there occurs a failure, it may properly be said to be

³ 35 U.S.C. § 133.

unavoidable, all other conditions of promptness in its rectification being present.⁴

The showing of record is inadequate to establish unavoidable delay within the meaning of 35 U.S.C. § 133 and 37 CFR 1.137(a).⁵ Specifically, an application is "unavoidably" abandoned only where petitioner, or counsel for petitioner, takes all action necessary for a proper response to the outstanding Office action, but through the intervention of unforeseen circumstances, such as failure of mail, telegraph, facsimile, or the negligence of otherwise reliable employees, the response is not timely received in the Office.⁶

As stated above, the showing of record is that the failure to receive the Office action mailed on 14 June or 28 July, 2004, occurred because petitioners failed to provide a proper correspondence address with the application papers filed on 30 January, 2004. A delay caused by the failure on the part of petitioner, or petitioner's representative, to provide the U.S. Patent and Trademark Office with a current correspondence address does not constitute an unavoidable delay.⁷

As the showing of record is insufficient to satisfy the requirements of a grantable petition under 37 CFR 1.137(a), the petition will be dismissed.

oath or declaration and the late-filing surcharge required by the Notice mailed on 28 July, 2004. As petitioners state that no copy of the Notice was received, a copy is enclosed herewith for petitioners' use in preparing a reply. Any renewed petition should be accompanied by a proper reply to the Notice mailed on 28 July, 2004.

ALTERNATIVE VENUE

Petitioner may wish to consider filing a renewed petition under 37 CFR 1.137(b), which now provides that where the delay in reply was unintentional, a petition may be filed to revive an abandoned application or a lapsed patent pursuant to 37 CFR 1.137(b). A grantable petition pursuant to 37 CFR 1.137(b) must be accompanied by:

(1) the required reply, unless previously filed. In a nonprovisional application abandoned for failure to prosecute, the required reply may be met by the filing of a continuing application. In a nonprovisional utility or plant application filed on or after 8 June, 1995, and abandoned for failure to prosecute, the required reply may also be met by the filing of a request for continued examination in compliance with § 1.114. In an application or patent, abandoned or lapsed for failure to pay the issue fee or any portion thereof, the required reply must be the payment of the issue fee or any outstanding balance thereof.

(2) the petition fee as set forth in 37 CFR 1.17(m);

(3) a statement that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition pursuant to 37 CFR 1.137(b) was unintentional. The Commissioner may require additional information where there is a question whether the delay was unintentional; and

(4) any terminal disclaimer (and fee as set forth in 37 CFR 1.20(d)) required pursuant to 37 CFR 1.137(c)).

The filing of a petition under the unintentional standard cannot be intentionally delayed and therefore should be filed promptly. A person seeking revival due to unintentional delay cannot make a statement that the delay was unintentional unless the entire delay, including the delay from the date it was discovered that the application was abandoned until the filing of the petition to revive under 37 CFR 1.137(b), was unintentional. A statement that the delay was unintentional is not appropriate if petitioner intentionally delayed the filing of a petition for revival under 37 CFR 1.137(b).

Should petitioners decide to file a petition under 37 CFR 1.137(b), the additional petition fee due would be \$750.00 for a small entity.

A copy of the form for filing a petition under 37 CFR 1.137(b) to revive an application unintentionally abandoned is enclosed herewith for petitioners' convenience.

Although petitioners indicate that there is more than one inventor for this application, since no oath or declaration in compliance with 37 CFR 1.63 naming the inventive entity has been filed, the petition and change of correspondence address signed only by inventor Robert Gagne will be accepted at this time. After an oath or declaration naming the inventive entity has been filed, however, any papers filed thereafter must be properly signed by or on behalf of the inventive entity.
